SUMMARY

Hi, I'm Dhanush. I recently completed my Engineering in ECE and I'm focusing on front-end development. I've built several projects using React, JavaScript, HTML, and CSS, including a recipe app, a weather app, and a game. I enjoy creating clean, responsive user interfaces and I'm looking for an opportunity where I can grow as a front-end developer

EDUCATION

Bachelor of Engineering (ECE) — Saveetha Engineering College (2021–2025) — CGPA: 7.5/10

Intermediate (MPC)— Sri Chaitanya Junior College (2019–2021) — CGPA: 7.1/10

High School — Bashyam High School (2019) — CGPA: 8.7/10

PROJECTS

Food Recipe Explorer

Tech Stack: React.js, Bootstrap, REST APIs

- Built a single-page app handling 500+ API calls with filtering & pagination.
- Improved load times by 30% using optimized rendering methods.
- Reduced component duplication by 25% through reusable modules.
- Automated deployment with GitHub Actions (CI/CD).

WeatherApp

TechStack: React.js, OpenWeatherMap API

- Created real-time forecast views for 10+ cities with 95% accuracy.
- Reduced API fetch time by 30% by restructuring API handlers.
- Enhanced user engagement by 25% with live search.

BubbleHit ScoreGame

TechStack: HTML, CSS, JavaScript

- Game played 200+ times on GitHub.
- Cut DOM lag by 40% using optimized event handling.
- Improved grid layout for smooth playability on mobile and desktop.

SKILLS

Languages: JavaScript (ES6+), TypeScript (learning)

Front-End: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Tools: Git, GitHub, Webpack, Vite

Concepts: Responsive Design, Accessibility, API Integration, Debugging, Performance Optimization

Workflows: Agile, Scrum, CI/CD

ACHIEVEMENTS

- Built and published 10+ projects with live demos, earning 1,000+ GitHub impressions.
- Completed 50+ coding challenges on LeetCode and Frontend Mentor.
- Participated in front-end hackathons and collaborative sprints.

AVAILABILITY

- Open to internship, hybrid roles, and entry-level front-end developer positions.
